

# A Tale of Two Popes

Daniel Gawthrop actually finished his new book *The Trial of Pope Benedict* just as the old pope was retiring, replaced by the new pope, Francis I.

Can the new pope rectify the problems identified in Daniel's book? And reestablish Vatican II as the main program of the Catholic Church?

Hear Daniel speak on July 25th in Victoria comparing the two popes and detailing the problems from the last 25 years which threaten to undermine the credibility of the Catholic Church worldwide.
